ANALYSIS TYPE	Qty	SAMPLE ID'S	OUTGAS TEMP / TIME	PRICE (each)

Quantachrome Instruments will not accept for analysis those materials which are radioactive, biohazards or present hazards for which the Applications Laboratory is not equipped.

A Material Safety Data Sheet (MSDS) is required for all samples submitted.

All samples from domestic customers will be returned 30 days after reporting of analysis results. Standard method of return shipping is by UPS Ground Service, charges being added to Quantachrome's invoice for the above analyses.

All International samples will be properly disposed of 12 months after reporting of analysis results unless otherwise notified by customer. Alternatively you may request return by Federal Express or UPS to be charged to your Federal Express/UPS account. If no choice is marked, Quantachrome Instruments will add a nominal shipping fee to all invoices.

Add to my invoice. Bill to my Federal Express/UPS account. My account number is: _____

NOTE: Mercury contaminated samples will be properly disposed of by Quantachrome Instruments.

Special handling or hazards: _____

Additional instructions: _____

Signature (required): _____
